***Walking 行走***

2013

Single channel video 单频录像

6 min 7 sec

*The material originates from Cronenberg's early film Stereo. From its name, it appears that the material has a close relationship with my collages. From the film, I have selected and cut out many figures in the process of walking. These processes together composed the changing relationship with time and space as it occurs when one walks. In architecture, the process of walking links together time and space and allows the space to flow. Collage has a similar effect in that in each film frame it changes the relationship between the people and the architecture as they are walking in time. Collage produces a dimension which follows the architectural space's flow. As such, it allows for walking to appear as it is happening on the surface but also in space, therefore in another psychological dimension. --By Guo Hongwei*

素材来自柯南伯格的早期影片 stereo（立体感），从名字来看似乎这些素材就和我的拼贴有“密切”的联系。我从片中剪切了大量人物在建筑物运动行走的过程，这些过程组成了一个人通过行走移动改变人所体验到的建筑空间的过程，但是却不用破坏所处空间的结构。在建筑里行走的过程串联着时间和空间，使空间开始流动。而拼贴像后期一样去改变着每一帧胶片里人和建筑在行走时间中产生的关系。拼贴产生的维度随着建筑空间的流动而流动，从而使行走更像是同时发生在平面和空间，以及另一个心理维度里。（郭鸿蔚）
